Merchants Say Trade At Home A Big Success

Wednesday Noon Closing For Summer Will Draw All From June 2nd To Sept. 1st

The Merchant's Division of the Belle Glade Chamber of Commerce, at its recent business session, held at a guest speaker, Mr. George J. Jr. The former discussed details of the Style Show and Mr. Watson the possibilities and advantages of making our city a more popular trading place. Suggestions made by the latter will be included in future activities of the division.

President E. D. Humphries, made the statement that the Trade at Home Week campaign was an unequalled success. The participants were more than pleased with the returns, for home store patronage sure took a heavy increase, with liberal buying all along the line, much of it of the better grade of merchandise.

Many merchants reported that people who had never before harried the doors of their business places, came in looked around, and made most satisfactory purchases and express satisfaction with goods and prices.

This special event to stimulate home store purchasing, was so successful, that the Division is planning on other new trade innovations. Agreement has been reached between the merchants, that there will be considerable improvements in classes, in classification of marketable goods, inside and exterior displays and other attractive features of trade.

Mr. Humphries also states that the merchant's Appreciation program was working out most successful, pleasing both the promoters and the customers, judging by the large assemblies of the latter who have been appearing at the shows since Trade at Home. However, now that the packing house season is practically over more people can get out in the afternoon, this event will be held at 3:30 o'clock on June 22nd, next, May 25th.

Ben Forrest, secretary of the Division, announces that starting with Wednesday, June 2, stores of the division membership will begin Wednesday noon closing, to run until September 1st, thus affording proprietors and sales people a half day holiday.

Commission Issues Permit For Hurley's Trailer Camp Job

The City Commission, at its Wednesday meeting, May 12th, received quiet claim demands from Kenneth Lutz and the John's Company, for lands to be used for street and sidewalk, for the proposed new street to run north from the north canal road, at the east end of the Memorial Avenue. The city, however, needs several more donations of land before the road can be constructed.

The street lighting question came up again for discussion as the city commissioners. Willis presented a tentative map of the locations of lights. P. P. DeMeyer, (Continued on page 5)

COMMISSION ISSUES

Continued from page 1 of the Florida Power and Light Company, to present the company's survey at the next commission session.

The question of a trailer camp on the Riedel property on northwest Second street was finally thrashed out and Mr. Hurley was granted an occupancy permit. The trailer camp's layout was approved, and zoning requirements had been met, and he already held a state sanitary license. Mr. Hurley will now proceed with his camp site project.

Pierce was also permitted to rebuild his substation electric plant, recently destroyed by fire, same to be of cement block and steel construction. Permission was granted to Nick Jones to transfer his liquor license to David Auerbach.

The Commission after report made by Commissioner Richmond, decided to join with South Bay and Pahokee in taking over the management of

the Port Mayaca Cemetery, for upkeep and securing of additional land for expansion. Commissioner Richmond was appointed as the city representative on the proposed new board. Paul and Alice Glavin will each assume 40 per cent of the shares and South Bay, 20 per cent, for improvements and care of the yard.

Commissioner Richmond stated that water meter reading had expanded to such an extent that the company's plan of operation could not do the work of two jobs. He requested the right to employ a combined new meter reader and meter repair man at the salary of \$175 a month. The request was granted, and R. A. Greener, formerly of Glades, was employed for the position, to start work on May 15th.

OBSERVATION

Continued From Page One. The community stood loyalty by its man candidate on the ticket. The community has taken on a cooperative program, which can be well represented by the words of the Bundle of Sticks parable. Look out for the future growth of that west county community. May we having boats running up to Miami canal before we know it.

"Buddy" Willis, sanitary inspector, is not missing anyone on the garbage collections payments, as last week, he issued 97 notices to delinquents and within a week, 95 of the cases notified had paid their quarterly stipend. The quarter with only half the period expired, the city clerk has collected the highest amount of money for the sanitary fund in the history of the town. Buddy is playing his favorite in this matter, as has been known to exist sometimes in the past. Suggestion is that you pay your garbage tax fees, or stand to get a heavier dose with fines in Mayor Lloyd's court some Monday or Friday night.

Well we Belle Gladeites have now had the opportunity of hearing the run-off Governor candidates speak on their issues. Both men gave excellent addresses, and we know that either one of them will sit in the Governor's chair, we will have a progressive man in that high and important administrative position.

The fighting spirit of south Floridians for the water control project was evident at the committee hearing last week - was effective, and the data brought before the committee, was of a nature to bring high praise from the Senators. Our Florida congressional representatives were all on hand and aided.

ed much in enhancing the possibilities for us to get the \$208,000,000 recommended by the Army engineers, for the so called flood control project. With an appropriation, in full payment, we believe that the Glades can look for greater protection and prosperity, as well as expansion of agriculture and industry projects. Hidden in muck land soils of the Glades is our golden wealth of the future. We can tax from this region, in not more than three years, would be more than enough to pay-off the \$208,000,000 that Congress is asked to give.
